What is the main topic of this article?

1. a prince named William.
2. a old university in Scotland.
3. how college students feel lonely and bored.
4. Prince William feeling isolated and un-challenged

Britain's Prince William Lonely at College

LONDON Monday March 4 (Reuters) – Being a prince isn't always a fantasy. When in college, Britain's handsome Prince William was lonely and bored as a student at Scotland's ancient St. Andrews University.

The Daily Mail tabloid has reported that Prince Charles, William's father, told his son that most students took a while to settle in and urged him to 'stick with it'. After talking to his father, the son of the late Princess Diana decided to continue studying art history at the famous university on Scotland's bleak eastern coast.

The Sunday Times said William struggled to make friends and thought the university was isolated. The heartthrob prince wanted to be known simply as William Wales and to be treated like other students during his four-year-course. But the shy teenager didn't have the life of a normal student. Police bodyguards lived in rooms next to his in St. Salvator's Hall and some newspapers followed him to local pubs when he met with friends.

The Sunday Times said William talked with his father Prince Charles about moving to the more cosmopolitan Edinburgh University or a university in Italy or the United States.
